

June 30, 2020

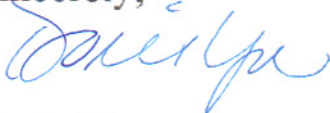

To whom this may concern,

Roberta Grace had been taking care of our second home at Mammoth Lakes for several years. She handled the clean, maintenance, and whatever I need her to do for our condo. Since I found her service and contracted with her, I never had to worry. She does her clean after each and every guest checked-out in a very timely manner. On my back-to-back guests, I never had to worry whether my place will be ready for the next guest. Always showed up to prepare my unit every time right away after that particular guest checked-out.

Not only she does the clean, she has knowledge on repairs as well. She would handle all my minor repairs by either doing it herself or finds people to completes it for me. Since we live out of the county, she handles all my appliance or furniture replacement and deliveries as well. Just tell her the time I need her, and she will be there.

Now that she had decided to move down to sunny San Diego, I miss her greatly and lost someone I had relied on strongly to make my job so easy. Unfortunately, she left Mammoth Lakes and now I have to find another care-taker for my second home at Mammoth Lakes.

Sincerely,

Doris Yu
